Arkote awarded total quality accreditation

Leading knife supplier, Arkote, has been recognised for its commitment to quality and has been awarded the ISO 9001 accreditation. ISO 9001 is the internationally recognised standard for Quality Management Systems.

Managing Director, Peter Skinner explains:

“We are delighted to have achieved ISO accreditation which recognises our ongoing commitment to quality and continuous improvement. In working towards this award, we have analysed and challenged every aspect of Arkote’s operations, involving both employees and customers. “

For over 100 years Arkote has supplied high quality cutting knives to the worldwide tobacco industry. During this time, the company has developed a manufacturing process which ensures that their customers achieve better productivity, minimum down-time and a reduction in costs. It has customers in over 80 countries around the world.

“We got it right first time which is exactly what I expected from our talented team and testimony to the fact that our underlying approach to quality has always been present.” Adds Peter.
